To Whom It May Concern:

Please consider this letter as certification that Poly-America's construction film is manufactured in the United States at any of three plant locations (TX, NV, or MN) using recycled raw materials. The precise amount of recycled raw materials used in each item varies based upon a variety of factors, including supply, seasonality, availability of other raw materials, etc.

Feel free to contact me if you have any questions.

Regards,

Dan Mikals
